

THE TUI HOLIDAY EXPERTS

IASONAS BOUNDY

TUI Holiday Advisor Position
Kos, Greece
1 year with TUI

What do you enjoy most in your job with TUI in Greece?

I love making holidays unique for our guests. Living on the island gives me the advantage of top tips that I can share to ensure an unforgettable experience.

What is special about Kos?

Whether you want to visit historical sites, go on an island hop or simply sit back and relax, Kos has something to offer for everyone. You can visit the Asklepeion, the first hospital in the world, Nissyros, an active volcano, and Kos town for a great night out.

Which beach would you recommend in Kos?

Paradise beach, which is also known as Bubble beach, is the best known beach on the island. However, the thermal hot springs in Psalidi are a must-see too.

What local food should visitors try in Kos?

A local delicacy on Kos is Krasotiri, a cheese called Mizithra which is marinated in local red wine.

What is the best experience in your region that no visitor should miss?

I suggest our "TUI Collection Simply Kos VIP" excursion, where you get to see the whole island, historic sites and try local wine, food and honey – an astonishing day out.

Did you know...

... that the tree of Hippocrates is 500 years old, but may possibly be a descendant of the original tree which stood there 2,400 years ago? Hippocrates taught medicine to his pupils and followers under its shade.
